

Noise Champion Role Description

The Noise and Vibration Champion will provide support to the Environmental Manager with general Noise and Vibration compliance and in particular communicate technical information throughout. The role will involve:

- Onsite noise & vibration awareness.
- Monitoring use of acoustic screens and general BPM onsite.
- Monitoring onsite S61 compliance (e.g. checking activity working hours, locations etc).
- Providing first point of guidance and advice on site.
- Feedback and site updates.
- Co-ordinate Engineering Team N&V Investigations (e.g. into exceedences/complaints).
- Co-ordinate attended monitoring strategy and any N+V Trials (e.g. to establish transfer functions).
- Attendance at noise and vibration / BPM / local authority meetings as required.
