Notes	1) The QPI score is calculated by using a 50% weighting of the periodic RFT metrics scores and a 50% weighting of the CRAF 2 score. 2) When CRAF actions are verified as complete extra points will be awarded as follows: 25% (0.25 pts), 50% (0.50pts), %, 75% (0.75pts), 80 % (0.80pts), 85 % (0.80pts), 95% (0.95pts), 90% (0.95pts) and 100% (1.0pts). The extra points will be added to the original CRAF score and for those Contracts that have been awarded extra points the CRAF score will be shown in white text 3) If a Works Information Vol 2B Clause 20.9 Defective Quality Management System notice is issued the QPI score for the period in which it was raised will be reduced by 25%																															

C650 have 3 or more 'N/A's of the periodic metrics and excluded from the above table and the 'Rolling 6 period average' QPI score also registered as 'N/A'.

*Rolling 6 period Av.	For any particular Contract if 3 or more Not Applicable (N/A) scores make up the 6 period rolling score then the *Rolling 6 period average' is marked as N/A. This is to avoid potentially giving an unfairly negative 6 period score when it is unwarranted.
